

COP27 VIRTUAL OCEAN PAVILION EXHIBITS

URBAN COAST INSTITUTE, MONMOUTH UNIVERSITY

Description

The [Urban Coast Institute](https://www.monmouth.edu/uci/) (UCI) was established in 2005 as one of Monmouth University's "Centers of Distinction," which work to promote awareness of specific issues and meet the needs of local and global communities. The UCI builds on Monmouth's program in [Marine and Environmental Biology and Policy](#) and interdepartmental strengths in environmental science, business, economics and real estate, public policy, the arts and social sciences. It maintains a principal focus on the interactions between humans and the coastal and ocean environment, and sustainable coastal development along New Jersey's coasts and watersheds.
